

## **Commercial Services: Toilets**

Commercial toilets and urinals are used frequently and are subject to a lot of abuse by their users. Modern toilets have evolved so much that they are not the simple bathroom fixture of days gone by. While advances in technology have made flushing more economical, many more things can go awry and toilet repairs have become more complicated.

Businesses and properties can be negatively affected if toilets don't operate properly. Leaking water costs money, damages property and can cause slippery areas. Waste water is associated with potential health risks. Immediate repair is important to the safety of your employees and tenants.

Affordable Drain Cleaning licensed and insured professionals provide 24-hour emergency toilet repair and replacement services to get your toilets running correctly as soon as possible. And, there's no extra charge for nights, weekends or holidays. Written estimates are free and our service is backed by our no-hassle guarantee.

### **Toilet Repair Services**

Affordable Drain Cleaning solve all types of problems, including clogged toilets, leaks and constantly running water, cracked tanks and bowls, toilets that don't flush and water pressure issues. Our licensed professionals can also repair, replace and relocate the pipes associated with your commercial toilets. Our plumbers ensure that manufacturer's standards are met when servicing your commercial or institutional toilets. We use only quality parts when repairing, rebuilding or replacing an existing toilet, urinal or bidet:

- Flush valve
- Auto sensor valve
- Flushometers
- Float
- Flapper
- Fill valve
- Flush lever assembly
- Shut off valve
- Tank and bowl
- Drain and water pipes

Affordable Drain Cleaning can convert most any commercial toilet into a dual-flush toilet for a fraction of the cost of a new dual-flush toilet. Users choose a reduced flush for liquids or a full-power flush for solids. Commercial properties start saving immediately because water usage is reduced by as much as 30%. A plumbing professional can also converting urinals from 1.5 gallons to just ½ gallons per flush, which saves an average of 4,600 gallons of water per year, according to the E.P.A.

## **Toilet Installation**

Commercial toilets are available in a wide variety of styles to accommodate every application and need:

- Standard
- Tankless
- Dual flush
- High efficiency
- Comfort height
- Air assisted
- Pressure assisted

Affordable Drain Cleaning can install any brand and a plumbing professional will recommend a commercial toilet, urinal or bidet that will work best in your setting—restaurant, school or university, hospital, apartment complex, office building, stadium and more—thereby providing long-term dependability and value.
