

## **Grease Trap and Liquid Waste Pumping/Hauling**

Affordable Drain Cleaning can dependably and professionally vacuum, pump and haul the liquid waste and sludge from septic tanks, sand pits, grease traps, catch basins or other liquid waste receptacles such as car wash sumps.

We can set your up you business on a time-and-money-saving preventive maintenance schedule, or we can just come quickly when you call us. Either way you get the top-quality commercial service of the best-known name in the business - Affordable Drain Cleaning.

Affordable Drain Cleaning grease trap pumping service thoroughly pumps your grease trap, eliminating the odor and safety problems associated with poorly maintained grease traps. Unlike some services that just skim the trap or leave hardened deposits, Affordable Drain Cleaning grease trap pumping technicians clean the entire grease trap and scrape away hardened grease. This thorough cleaning means you'll need your grease trap pumped less often, and there's no accumulation of old grease, which can cause unpleasant odors.

Affordable Drain Cleaning disposes of grease trap waste at licensed processing facilities. We maintain proper transport manifests and follow all federal, state and local regulations. Professional Affordable Drain Cleaning grease trap and waste pumping service ensures the job is done right from start to finish, protecting everyone concerned & the environment from health and safety risks.
